

oven & grill cleaner

SIMPLICITY

- **FAST**
- **CLEAN**
- **EFFECTIVE**

DESCRIPTION

Uniquely formulated to chemically loosen all carbonized food residue from ovens, grills, hoods, rotisseries and drip pans. Eliminates sticking of food and grease from most cooking surfaces. Treated surfaces are easily wiped clean. The foam quickly becomes a unique viscous gel to combine the chemical effect of polymeric thickeners and cut through carbonized food residue. A combination of caustic potash, detergents, wetting agents and other cleaning agents. Can be used on glass, stainless steel and porcelain.

This heavy duty oven cleaner quickly remove heavy buildup of backed-on food and carbon from over interiors. Its institutional formula offers "spray on/wipe clean" type action in most cases. Power packed clinging formula enhances "hang-time" for better cleaning of vertical surfaces.

FEATURES • BENEFITS • USES

- Clean
- Fast
- Effective
- Self cleaning - For daytime or overnight oven cleaning
- Ideal for cleaning ovens, barbecue grills and stainless steel

Recommended for use **ONLY** on porcelain, enamel, iron, stainless steel, and certain chrome surfaces such as aluminum and chrome trim, baked enamel, copper-tone or painted areas.
