POWER BLAST

KILLS

- **YELLOW JACKETS**
- **BEES**
- **SPIDERS**

- **FAST & EFFECTIVE**

DESCRIPTION

Performance-tested insecticide for controlling wasps, hornets, bees, and yellow jackets. Oil based synergized pyrethrin. Extremely fast knock-down plus residual strength to kill insects which return to the nest. The long-range protection (sprays up to 20 feet) of the "jet spray" nozzle aids in reaching nests without being exposed to danger of being stung or bitten. The spray widens towards the tip so that the entire nest can be covered within the first few seconds of spraying, reducing the margin for error and adding a measure of safety.

FEATURES • BENEFITS • USES

- Kills a wide variety of insects
- Eliminates the need for multiple insecticides
- Knockdown power!
- Sprays up to 20 feet
- Prevents dangerous insects from attacking while application is given
- Enables application to be given from a safe distance
