

**insect  
killer**

## **I/O INSECTICIDE**

### **RESIDUALLY KILLS**

- **ANTS**
- **ROACHES**
- **TICKS**
- **FLEAS**

- **ALSO KILLS FLYING  
INSECTS**

### **DESCRIPTION**

A dual purpose insecticide which provides effective control of both flying and crawling insects. Its "dual action" valve allows spraying as a mist for flying insects such as houseflies, mosquitoes or gnats or as a stream for cracks and crevices. This insures versatility and maximizes product effectiveness. Insects directly contacted die immediately. They do not continue to move and die in an obscure area. Contains pyrethrins for a more potent kill and lower toxicity to non-target organisms.

### **FEATURES • BENEFITS • USES**

- Knockdown Power Spray
- Kills fast
- Kills a wide variety of insects
- Long lasting power
- Kills up to 42 days
- Eliminates the need for multiple insecticides
- Insects directly contact die immediately
- Reduces the number of applications required
- Removes the danger of being attacked by pest after contact

Residually kills ants, cockroaches, ticks, flies, fleas and many others

Markets include: Apartments, Automotive, Marine, Food Service, Housing, Veterinary, Industrial, Institutional  
EPA Registered
