BUG BARRIER

RESIDUALLY KILLS

- **ANTS**
 - **ROACHES**
 - **TICKS**
 - **FLEAS**
-
- **ALSO KILLS FLYING
INSECTS**

DESCRIPTION

Bug Barrier -- long lasting insect control. A water-base residual formulation containing the fast knockdown, sure kill action of MGK-264[®]. Lethal to target organisms and low hazards to humans and animals. Allows you to see where you have sprayed. A fast acting, dual purpose product provides control that lasts for weeks. Container has a dual purpose spray: a fine mist for aerial control spraying of flying insects (houseflies, mosquitoes, gnats, wasps); a stream for spraying cracks, crevices, along baseboard and other hiding places (ants, roaches, earwigs and many other crawling pests). An essential component of insect control programs.

FEATURES • BENEFITS • USES

- Kills fleas and ticks
- Kills fast
- Crawling insects directly contacted die immediately
- Long-lasting power
- Kills for up to 42 days
- Reduces the number of applications required
- Kills a wide variety of insect pests
- Eliminates the need for multiple insecticides

FOR USE IN Homes and nonfood areas of Kennels, Commercial Buildings, Warehouses, Theaters, Office Buildings, Schools, Motels, Hotels, Restaurants and Food Processing Facilities
