

SPRAY SANITIZER

Food Contact Surface Sanitizer.

Ready-to-Use.

No Mixing.

Eliminates odors caused by bacteria.

Kills 99.999% of bacteria in 1 minute.

**For use in federally inspected meat
and poultry plants.**

Spray Sanitizer is a Cleaner, Sanitizer, Deodorizer for Homes, Institutional and Industrial use.

Spray Sanitizer is designed for use in households, institutional kitchens, dairies, food processing plants, food service establishments, public eating establishments where sanitization of food contact surfaces is of prime importance. When used as directed, Spray Sanitizer will sanitize previously cleaned and rinsed, non-porous, food contact surfaces: food holding tanks, eating utensils, drinking glasses, counter tops and finished wood or plastic chopping blocks.

Spray Sanitizer can be used with a mop and bucket, sponge, cloth, low pressure coarse sprayer, hand pump trigger sprayer or by soaking. This product may be applied through automatic washing systems, immersion tanks, foaming apparatus, low pressure sprayers, and fogging systems.

Kills 99.999% of bacteria: Staphylococcus aureus, Escherichia coli, Campylobacter jejuni, Listeria monocytogenes, Salmonella typhi, Shigella dysenteriae, and Yersinia enterocolitica in 1 minute.

DESCRIPTION

A ready to use spray product designed specifically as a sanitizer for use in schools, dairies, restaurants, bars, taverns, institutional kitchens, food handling and processing areas, and federally inspected meat and poultry plants

It is recommended for use as a sanitizer on dishes, glassware, utensils and food processing equipment without potable water rinse.

APPLICATION

Spray Sanitizer may be used on washable hard, non-porous surfaces, including: dishes, glassware, silverware, cooking utensils, plastic and other non-porous cutting boards, coolers, ice chests, and food processing equipment.

DIRECTIONS FOR USE

U.S. Public Health Service Food Service Sanitization Recommendations: Equipment and utensils must be thoroughly pre-flushed or pre-scraped and when necessary, pre-soaked to remove gross food particles and soil. 1. Thoroughly wash equipment and utensils in hot detergent solution. 2. Rinse utensils and equipment thoroughly with potable water. 3. Sanitize equipment and utensils by immersion in this product for at least 60 seconds at a temperature of 75 F. 4. For equipment and utensils too large to sanitize by immersion, apply this product by rinsing, spraying or swabbing until thoroughly wet for at least 60 seconds. 5. Allow sanitized surface to drain and air dry. Do not rinse.

SPECIFICATIONS

Packaged:	12- 1 quarts
Appearance:	Red Liquid
Fragrance:	Characteristic
pH:	7.00
Flash point:	None. Nonflammable
Germicidal type:	Quaternary
Solubility in water:	Complete
Authorization:	Registered with EPA
