

# PRODUCTS CHEMICAL

**SURPRISE<sup>AF</sup>** designed specifically as a general non-acid cleaner and disinfectant for use in homes, hospitals, nursing homes, patient rooms, shower rooms, locker rooms, public restrooms, schools, office buildings, athletic/recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination.

When used as directed, this product will deodorize surfaces in rest room and toilet areas, behind and under sinks and counters and other places where bacterial growth can cause malodors.

It eliminates odors, leaving bathrooms smelling clean and fresh. Use where odors are a problem. It cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms and prevents the growth of mold and mildew. Its non-abrasive formula is designed for daily use on restroom surfaces.

**Non-Acid Bowl & Bathroom Disinfectant Cleaner.** This product is a ready-to-use non-acid bowl and bathroom cleaner that cleans, disinfects and deodorizes in one easy step. It cleans, disinfects, and deodorizes toilet bowls, urinals, rims, sinks, sink basins, faucets, tubs, glazed tiles, glazed ceramic, glazed porcelain, chrome, stainless steel, and all non-porous inanimate surfaces found in the restroom.

## DESCRIPTION

This pleasantly scented hospital type disinfectant is ready to use full strength. It quickly cleans, disinfects, and deodorizes in one easy step. This product has shown broad spectrum activity against micro-organisms found on hard non-porous surfaces such as bathroom tiles, fixtures, shower stalls, walls, sinks and bathtubs. Spray surface, let it work to control germs, fungi, mold and mildew.

## APPLICATION

CLEANING AND DISINFECTING in Nursing Homes, Hospitals, Institutions, Offices, Schools, Motels and Hotels.

Formulated to disinfect inanimate hard surfaces such as: WALLS, DOOR KNOBS, SINK TOPS, LIGHT

SWITCHES, TABLES, SHOWER STALLS, CHAIRS, HAMPERS, TELEPHONES, CABINETS

## DIRECTIONS FOR USE

This product is not for use on critical or semi-critical medical device surfaces.

**DISINFECTION, DEODORIZING AND CLEANING**-Remove gross filth or heavy soil prior to application of the product. Hold container six to eight inches from the surface to be treated. Spray area until it is covered with the solution. Allow product to penetrate and the surface remain wet for **3 minutes** (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 **2minutes**, for HBV and HCV **5 minutes**). No scrubbing is necessary. Wipe off with a clean cloth, mop or sponge. **To disinfect food processing premises:** floors, walls and storage areas, hold container 6 - 8 inches from surface to be treated and spray area until it is covered with the solution. Allow product to penetrate and remain wet for **10 minutes**. Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. **To disinfect food service establishment food contact surfaces:** countertops, appliances, tables, hold container 6-8 inches from the surface to be treated and spray area until it is covered with the solution. Allow product to penetrate and remain wet for **10 minutes**. Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Heavily soiled areas must be pre-cleaned before using this product. Do not use on eating utensils, glassware and cookware. Using approved AOAC test methods under Good Laboratory Practices, in the presence of 5% blood serum and a **3 minute** contact time, unless otherwise noted, this product kills the following organisms on hard nonporous inanimate surfaces: **BACTERICIDAL ACTIVITY**- Staphylococcus aureus (ATCC 6538), Salmonella choleraesuis (ATCC 10708), Pseudomonas aeruginosa (ATCC 15442), Escherichia coli (ATCC 11229), Escherichia coli 0157:H7 (ATCC 43895). **ANTIBIOTIC-RESISTANT BACTERICIDAL ACTIVITY:** Methicillin resistant Staphylococcus aureus (MRSA) (ATCC 33593), Vancomycin intermediate resistant Staphylococcus aureus (VISA) (CDC Isolate 99287), Vancomycin resistant Enterococcus faecalis (VRE)(ATCC 51575). **\*VIRUCIDAL ACTIVITY**-This product kills on hard, nonporous inanimate surfaces when allowed to remain wet or a **10 minute** contact time Hepatitis A Virus (HAV), Poliovirus Type 1, Canine Parvovirus.

## SPECIFICATIONS

Packaged: .....12 quart case; 4-1 gallon case; 5-gallon pail; Drums  
Appearance: ..... Blue Liquid  
Fragrance: ..... Fresh Citrus  
Hard Water Tolerance: ..... Excellent  
Acid: ..... None  
pH: ..... 11.7  
Authorization: .....Registered with the EPA
