

PRODUCTS CHEMICAL

WEED KILLER 101

emulsifiable
vegetation killer

CONCENTRATED FOR ECONOMY

One gallon pre-mixed in 10 gallons of water will sterilize up to 1250 square feet of soil surface. Faster than time-consuming weed cutting and other non-cropland.

NON-SELECTIVE TOTAL VEGETATION CONTROL

Controls weeds and vegetation on non-cropland areas. Has considerable activity through foliar contact as well as through the roots.

ONE PRODUCT -- SEVERAL USES

Use in parking lots, on fence rows, along guard rails, railroad sidings, highway medians, rights-of-way, pipelines, drainage ditch banks, around buildings, storage areas, machinery, recreational areas.

CUTS LABOR COSTS -- LONG LASTING RESULTS

One properly applied application in the spring will kill weeds for the entire season and will sterilize the soil for up to a full year.

Unchecked weed growth can lead to safety problems, property deterioration and cause an unsightly appearance around your facility.

Reduces fire hazards -- Eliminates pest breeding grounds

Weed control - A must for sanitation, safety and appearance

DESCRIPTION

This emulsifiable herbicide concentrate provides effective, nonselective weed and vegetation control on non-cropland areas. The control of a wide variety of annual and perennial weeds and grasses improves building sites, reduces fire hazards and eliminates pest breeding grounds.

APPLICATION

Controls hard-to-kill perennial weeds and grasses:

Johnsongrass • Bindweed Wild Carrot

For bare ground weed control around buildings, storage areas, fences, fuel tanks, recreational areas, pipelines, railroads, highway medians

DIRECTIONS FOR USE

To cover 100 sq. ft. add 10-16 fl. oz. by use of a sprinkling can or other watering or spraying device in sufficient water to get good coverage of the area (e.g. 2-1/2 gals. in sprinkling can). For control of hard-to-kill perennial broadleaf and grass weeds, use 1-1/3 - 1.8 qts. in sufficient water to get good coverage. Different grades of mineral oil, diesel fuel, petroleum-based oil, fuel oil, or kerosene may be substituted for water.

SPECIFICATIONS

Packaged: Drums, 5- gallon pails
Appearance: Brown liquid
Fragrance:Characteristic
pH: 6.00
Flash point: 130F. Combustible
Residual action: Excellent
Authorization: EPA registration
Requires no authorization by USDA

PRECAUTIONS

Keep out of reach of children. Harmful if swallowed. Possible eye or skin irritant. Do not take internally. Keep out of eyes. Avoid prolonged skin contact. Do not store near fertilizers, seeds, insecticides or fungicides. Do not apply to desirable plants. Avoid spray drift to susceptible plants - vapors may injure plants in the immediate vicinity. Toxic to fish and wildlife. Keep out of lakes, streams or ponds or where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Rinse empty container with water and discard. This product is intended for industrial and commercial use and storage by trained service persons only. Manufacturer will not be responsible for any injury, loss, or damage, if product is used in any manner not in compliance with label direction or if precautions are not observed.

FIRST AID

EYES: Flush with large amounts of water for at least 15 minutes; contact physician.
IF SWALLOWED: Do not induce vomiting or give anything by mouth to an unconscious person. Immediately seek medical attention. EXTERNAL: Flush with large amounts of water.
